Send greetings User Story: UST-001

As a / an **Tourist**

I want to

send greetings

so that

my friends and family know that I am thinking of them

BDD Scenarios

1: Misc Category

Send greetings using REST interface BDD Scenario: BDD-001

Given

I am on the Swagger screen and have selected the "Hello World Controller" interface

Step 1: Visit URL `http://139.162.220.111:8080/hello-world-webapp-1.0.0-SNAPSHOT`

Step 2: Click on the link "hello-world-controller" to `http://139.162.220.111:80`

when

I enter an email address and click on the button "Try it out!"

Step 3: Click on the link `"/api/greeting"` to `http://139.162.220.111:8080/hello-`

Step 4: Click on the "email" text field

Step 5: Enter "michael.wechner@wyona.com" in the "email" text field

Step 6: Click on the "Try it out!" button

then

an email will be sent to the address which I have entered
